Claims 21-38, 40-46, 56, 57 and 63- 66 are presented for examination.

The amendments and remarks filed on November 30, 2009 have been received and entered.

Claims 21-38, 40-46, 56, 57 and 63-66 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Muller et al. (US 5,858,410) in view of Anderson et al. (US 5,739,152) for the reasons set forth on pages 2-5 of the office action of May 28, 2009.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the claimed composition can be autoclaved without any marked increase in particle size. It is the examiner's position that since the prior art teaches the same composition as the instant application, therefore, the lack of marked particle size after autoclaving is the expected property of such composition. Applicant in his remarks alleges criticality to the use of thermoprotectant agents of the claimed invention in comparison with the lack of such agents in the prior art composition. It is the examiner's position that the prior art teaches the use of trehalose, which is one of the thermoprotectants on page 13 of the instant application, being used in combination with a water insoluble poorly soluble drug and a phospholipid surface modifier.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
